Make your website come alive with your own voice or filmed commercial

Make your website create more business

Create more sales and reinforce your image as a successful business

It is now an internet marketing fact that visual commercials or a voice commercial attracts the interest of the buyer 5 times more than just any website because they can listen, watch and absorb your message far more effective than what reading will do.

They have no viewing time restrictions unlike television and radio.

You only pay for the production once and yet you will generate business years into the future.

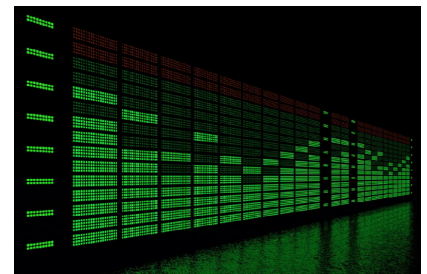

We guarantee a 100% professional completed job.

Far cheaper than a television or radio commercial and you own it.

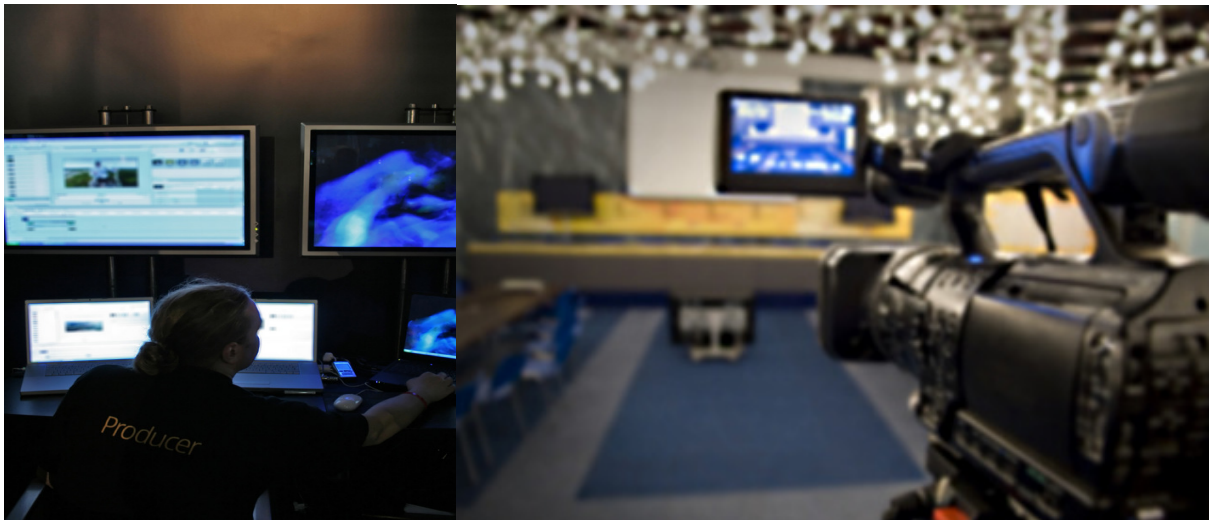

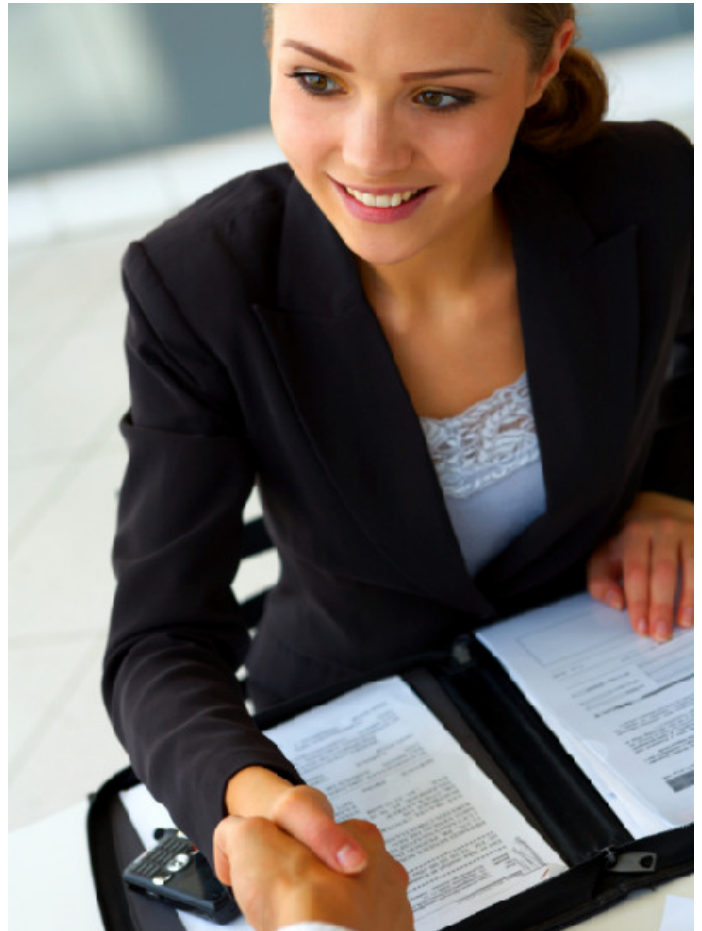

Your voice or filmed commercial will separate your business from many others on the internet.

You get a master copy of your commercial on DVD format to use elsewhere e.g. exhibitions or client presentation.

Your voice commercial can be placed on your phone message so you can save real money.

- Imagine your own TV style 3 to 4 minute produced infomercial on your website for as low as \$3950 (up to \$5850) once only including a voice.
- An interactive 2 minute slide show cost is only \$1950 with a professional voice
- Give your website the voice it needs by letting us produce a professional voice commercial with music for as low as \$1395 once only.

Our team are friendly and professional!

Read what our customers are saying

“We are excited about our new website video as it reflects the craftsmanship that is required to build a billiards table. We have already received many positive responses let alone we can use this DVD at many exhibitions we attend.”

Peter & Dianne McKee - masterbilliards.com.au

“Thanks for a great website and the voice commercial which did make a difference. The commercial makes our site stand out and come alive just what we needed it to do.”

Alex Todorovic - ronisindustrial.com.au

“There is no doubt that our new kitchen customers who found us on the internet loved our commercial allowing them to see touch and feel what we offer in kitchen designs.

Your whole team is very professional Phil from filming down to the final editing.”

Mark and Dominique - provincialkitchens.com.au

“Our filmed movie on our website has received overwhelming interest from all who search our internet site. It was the best thing we ever did for our business, people can relate to who we are.”

Joe Davino - deltawarringahgargeddoors.com.au

“Our internet customers tell me the voice commercial works well giving them professional information on what we do”

Brian Malone - malonelandscapes.com.au

“Our voice commercial explains what we do & how we do it, live on our website and has generated many new customers making the initial cost 100% worthwhile.”

Matt Dyson - leakinc.com.au
